Here at Hell farm we run a holiday cottage business and have been providing meals for our guests for a few years..

Subsequently, due to popular demand we decided to open our house to non-residents wishing to enjoy Japanese food at a reasonable price. We are not a restaurant and will entertain you exclusively in our dining-room with an informal but cosy atmosphere.

Whatever the occasion - business, celebration, or just for the love of eating, we feel sure you will find this an experience to remember.
